BACKGROUND OF SCHOOL OF GRADUATE STUDIES (SGS)

The School of Graduate Studies (SGS) is a service-based administration center established to assist postgraduate students starting from admission till the completion of their studies. SGS is the core support system that helps to ease and enhance the postgraduate experiences for UPM students by fostering the relationship between UPM and its graduates.

SGS was formerly known as the Graduate Study Unit in 1978, then progressed to become a fully functional Graduate School Office (GSO) in February 1993, to serve the growing population of postgraduate students in UPM. In March 2002, it was officially renamed as School of Graduate Studies (SGS) which coordinates all postgraduate programme and their related activities in UPM. SGS also plays an active role in advancing UPM's status as a research university.

Among its main roles are:

- i) To develop policies for the university to produce competent graduates.
- ii) To cultivate and nurture research culture through an effective management of postgraduate activities.
- iii) To ensure the quality of postgraduate programmes are in line with the national education standard.
- iv) To increase the enrolment of international students to cater the institution's internationalization initiative.

INTERNATIONAL COLLABORATIVE PROGRAMME (ICP)

1. What is the difference between Joint, Dual, and Double Degree programmes?

Joint Degree:

Upon graduation students will receive only one certificate with both universities' logos on the certificate.

Dual Degree:

Upon graduation students will receive one degree with two certificates issued by each university. A linking statement is stated on both certificates to indicate that the degree was obtained through a collaboration between two universities.

Double Degree:

Upon graduation students will receive two degrees with two certificates issued by each university. A linking statement is stated on both certificates to indicate that the degree was obtained through a collaboration between two universities.

2. Do I need to register as a student with the partner university where UPM signed the ICP agreement?

Yes, you need to register in person at the partner University.

3. How long do I need to spend at the partner University?

In general, the minimum duration is 6 months for a Master and 12 months for a PhD. However, for some ICP programmes different minimum duration is imposed:

University	Master	PhD
Kyushu Institute of Technology	1 year	2 years
Sharif University of Technology	1 year	2 years (at SUT) 1 year (at UPM)

4. How will the viva be conducted?

For joint/ dual degree, in general only 1 viva will be conducted, either at UPM or partner university. The examination process will be arranged by the university where the thesis is submitted. A joint Examination Committee will be formed which consist of 1 examiner from UPM, 1 examiner from the host university and 1 examiner from independent university. However, the viva for Joint PhD programme with University of Newcastle, Australia will be conducted at UPM and therefore the thesis must also be submitted to UPM.

For Double Degree, the student will be required to produce 2 theses. 1 thesis will be submitted to UPM and partner university. Each university will form a separate Joint Examination Committee to examine the thesis.

You are still required to attend classes for the compulsory courses like research methodology, seminar and Malay language (international students only). However, the courses may be offered in an intensive mode.

You need to appoint a new supervisor with your employer's approval and supported by your Main Supervisor from UPM.

7. What if I change the company or relocate to a different location?

Your Industrial Supervisor can remain the same. However, a new agreement (if any) needs to be signed with your new company and your previous company needs to issue a withdrawal letter to indicate that it agrees to release its rights. If there is any conflict, it must be resolved before UPM issues a letter agreeing to the change and your research will be put on hold until the issue is resolved.
